

SPEED INDICATION DEVICE

27 April 2024

Spelsbury Parish Council has one movable, battery powered speed indication device.

This has been maintained by an outgoing councillor – charging and changing the batteries as required, moving the device between the locations approved by the County Council, and collecting the data.

Decision

The Council needs to decide who will take over the responsibility for:

- Charging and changing the batteries
- Moving the device between approved location
- Data collection
